A New Water Tank for the Eighteenth and Nineteenth Wards.

SOME TALK ON STREET CLEANING.

The Bill to Change the Name of Chief to

Manager Ridiculed. ME. WIGHTMAN ASKED TO RECONSIDER

The regular session of Pittsburg Councils was held yesterday in both branches, Select Council beating its own record by holding the shortest session of the year, lasting just 45 minutes. On the call of wards a number of ordinances were presented and referred to the appropriate committees. Mr. Warmcastle presented a resolution requesting the Chief of the Deportment of Public Works to furnish an estimate of the cost of erecting a water tank in the Nineteenth ward to supply the residents of part of the Eighteenth and Nineteenth wards with a supply of water. In presenting the resolution, Mr. Warmeastle said that there was a large ares in those two wards that was situated higher than the Hiland avenue reservoir, and in consequence the people were without a supply of water. It would be too expensive, he thought, to pipe the water from the Herron Hill reservoir to supply this district, and if the resolution was adopted it the demand at a comparatively small cost.

The resolution was adopted.

Mr. Bigelow was asked about the matter later, and said it had been contemplated by him for some time. His idea is to erect a large iron tank on Winebiddle Hill, running the water by gravity from the Hiland avenue reservoir as near to that point as possible and pumping it to the tank with a small pumping engine.

CLEANING THE STREETS. The resolution requesting the Chief of the Public Works Department to clean the streets of the Seventeenth ward was adopted, but Mr. Kenting took occasion to remark that it was a ridiculous thing to do to tell the chief of that department to do what he well knew was necessary, but lacked money to do. If the streets of the city were to be kept clean, Mr. Keating said, the approprincipled. He advised the people of the Seventeenth ward to have all their streets paved if they wanted them kept clean.

A resolution providing for the repaving of Butler street from Fortieth to Fortyninth streets, to be referred to the Finance Committee, and included in the appropriation of 1890, was adopted after a motion to strike out the clause including the improvement in the appropriation was passed.

The following ordinances were passed Authorizing the Chief of the Department of Public Safety to purchase tots in the Thirty-second and Thirty-lifth wards for fire depart-ment purposes; grading, paving and curbing Barton street from Fifth avenue to Forbes street: grading and paving Jumonville street from Fifth avenue to Forbes street; grading, paving and curbing Sheridan street from Penn to Ellsworth avenues: grading, paving and curbing Thirty-sixth street from Charlotte street to Railroad street; sewer on Lincoln avenues. The river last evening was nue from Mayflower street to the Negley run sewer; sewer on Twenty-sixth street from Penn avenue to the Allegheny river.

W. A. Magee presided at the meeting of freshet. The Allegheny was reported yesCommon Council. After the presentation terday to be rising at Oil City.

and there is a possibility of the mill having to shut down again.

William Charles & Co., of Allegheny. of several street ordinances and resolutions, which were referred, Mr. Duncan presented a resolution for a water main on Brereton avenue from Twenty-eighth to Thirty-third With it he presented a communication from Superintendent Evans, of the fire bureau, to Chief Brown, in which he said caused such a delay that the department

was practically powerless. HOUSES CLOSE TOGETHER. The neighborhood is closely built up and if a better water supply is not afforded there

WORK OF COUNCILS. THE PANHANDLE FREIGHT YARD. CREATING DISCORDS.

There Will be Side Trucks, and After a While a Repair Shop-The Big Steel The Scarcity of Natural Gas Makes Mill at Chartlers. Superintendent Turner, of the Panhandle

Railroad, was seen yesterday regarding the report that their company had bought con-siderable land in the Chartiers valley so SOME THREATS OF A STRIKE MADE. that the company could increase their

freight yard accommodation. He said: "It is true that we have purchased about 30 acres of land in the Chartiers valley. For the past lew months the increase in our freight business has been so great that we have been hampered in handling the cars. The land we have bought adjoins our present yard, and it is our intention to lay side tracks down at once. The clearing of the ground and the putting down of the tracks

will give employment to about 500 men for several months. "In the future we expect to erect repair shops where all the work on freight cars able to keep up with the demand, and some will be done. As soon as the lines are laid firms are looking for a supply elsewhere. we shall build an additional freight depot."
An interview was sought with Mr. W. J. Hammond. He was, however, in Denver, Col., but his son stated that his father had purchased a tract of land, and it was his intention to erect a large steel plant. He said since his father's mill burnt down on Second avenue, 12 months ago, they had coased to manufacture steel. He said that when the new plant was built, they would

Trouble.

Workmen Object Decidedly to Changing Turns.

THE PHILADELPHIA COMPANY SHORT The insufficiency of the supply of natural gas to some of the mills within the city and

neighborhood is causing a deal of dissatisfaction all round. The Philadelphia Company is no longer firms are looking for a supply elsewhere. Shoenberger & Co. have been idle for the past week while waiting for a line to be run into their works from the Equitable Com-

pany's main, to which company the firm has decided to change.

The managers of Carnegie, Phipps & Co.'s Union Mills were notified by the Philadelphia Company on Saturday that for the present the supply of gas between the hours of 6 o'clock in the morning and 12 o'clock would be short, and in turn the puddlers were informed of the fact. They were told that it would be necessary for the day puddlers to start in at 12, poon, and work until 9:30, making five heats, to be followed by

DECIDEDLY OBJECT. should work six heats, or three heats in each turn, which could be effected in 10 or 11 hours. The managers want the men to object to this arrangement also. They prefer each turn to alternate every second day. The loss in output to the firm is about 45 tons of iron each week, and the men claim that they could make 30 heats if the man-

committee of the men has been appointed to consult with the firm in the premises. They agreed and commenced to work at or Louisville.

The shipments from this port since the heats, but it was impossible to make eight stated that the restriction on the output of John A. Wood & Son about 1,000,000 bushels. These three firms are the largest shippers in the port, and represent fairly well the magnitude of the coal trade from have been remodeled so that they can be
